

Advances in 21st Century Research and Education Through Microscopic Imaging

The Scientific Conference of Microscopy Society Malaysia (SCMSM) is an annual event that become a platform for researchers, academics and scientists in highlighting the results of research and analysis using microscopes or other imaging instruments by targeting the participation of students, researchers, technical staffs and suppliers. The conference has an excellent reputation which is strongly recognized within the local and regional microscopy communities, making this meeting a key event in the yearly meeting calendar for hundreds of multidisciplinary scientists and industrial experts. By emphasizing interdisciplinary approaches that integrate life and physical sciences, this conference which organizing by Universiti Pendidikan Sultan Idris (UPSI) and Microscopy Society Malaysia (MSM) becomes a platform in providing the opportunities for the researchers, academicians and scientists to present and disseminate tangible research output.
